Dr. Konstantinos Makris
Conference President

Dear Colleagues and Friends,

On behalf of the Organizing and Scientific Committee I have the special pleasure and honor to invite you to the joint **Meeting of BCLF, GSCC-CB** coorganized with the **AFCB- EFLM LM4MS Second Conference**. The main theme of this Conference will be the **Laboratory Medicine in the Mediterranean area**. The whole event is organized under the auspices of **IFCC** and of the **University of Crete**, and will take place from **October 2nd to 5th, 2022** in Heraklion, Crete, Greece.

The Main Conference (and all the Satellite Symposia) will be conducted in a fully hybrid way (physical presence and zoom presentation streamed online) in order to comply the current Health Protocols for the organization of conferences and to allow to attend as much as possible delegates and presenters.

The aim of this conference is to initiate discussions between Laboratory Scientists and Clinicians that are in the front line of providing medical services to refugees and immigrants around the Mediterranean Area, and to propose to Health Authorities the best solutions for laboratory testing and health screening on the mobile societies settlements (hot spots, camps etc.).

This will help to evaluate precisely the health and medical needs of the mobile populations as also as to identify problems that arise to host countries and their populations, in order to propose solutions.

Target audience is specialized laboratory scientists (Biochemists, Chemists, Biologists, Microbiologists, Pathologists, etc.) from Greece and abroad, as well as clinicians involved in treating mobile and local populations and healthcare administrators.

During the conference there will be presentations of distinguished Greek and foreign scientists, Symposia, Round Tables, as also as exhibition of IVD instruments and reagents and Satellite Symposia organized from IVD Companies for the presentation of new methodologies and/or instrumentation.

Heraklion is the capital city of Crete, the big Island at the center of Eastern Mediterranean area, hosting a University, many Research Centers, big Hospitals and Clinical Laboratories with a broad spectrum of specialization and size.

Heraklion, also known as Iraklio, is a port city and is also known for the Palace of Knossos, just outside the city. The huge archaeological site dates back thousands of years to the Minoan civilization, and includes frescoes and baths. Guarding the city's Venetian port is the 16th-century Koules fortress. Heraklion Archaeological Museum has a large collection of Minoan art.

Looking forward to welcoming you in Heraklion in October 2022,

Konstantinos Makris

HERAKLION CITY VIRTUAL TOUR

We hope that you will find great pleasure in exploring the City of Heraklion with us!

WELCOME TO HERAKLION

About the city: Heraklion, Crete

Heraklion is the capital of Crete and one of the Mediterranean region's most fascinating and vibrant cities. It is full of places to discover. With the current efforts to open up the wonderful mediaeval city centre, it speaks to us of a past full of history and great events that reflect its location at the crossroads of three continents.

The city is also the commercial and technological centre of the island. It has a strategic geopolitical position in the south-eastern Mediterranean Sea connecting three continents and many different cultures. It offers a wealth of museums, a summer-long arts festival, historical sightseeing, amazing nightlife and events throughout the year. Whatever the purpose of your visit, your stay in Heraklion will be one to remember.

HOW TO REACH HERAKLION

FERRIES TO HERAKLION

You can easily reach Heraklion from Athens by ferry, since there is a daily connection with Piraeus port, all year round. The trip lasts from 6 to 8 hours. During summer, you can also reach some islands of Cyclades and Dodecanese from the port of Heraklion, like Santorini, with which Heraklion is connected on a daily basis. Once per week, Heraklion is linked by ferry with Mykonos, Paros and Milos, while three times per week Heraklion is connected with Karpathos, Kassos and Rhodes.

FLIGHTS TO HERAKLION

Heraklion International Airport "Nikos Kazantzakis" is the second busiest airport in Greece. All year round, it receives flights from Athens, Thessaloniki and Larnaka, while during summer it also receives flights from many countries around Europe. The flight time from Athens to Heraklion is about 45 minutes.

Upon your arrival, it is a nice idea to take a taxi for your transfer, since the airport is located in the region of Nea Alikarnassos, 5 km away from the Town centre.
